

# Save the Date

## WeObserve Roadshow event: Citizen Observatory for flood management

10 March 2020 from 09:00 to 13:00

Hosted by the Interreg VISFRIM Project Consortium  
Venue: Cerje Peace Memorial, Miren (Slovenia)

This interactive event will showcase to emergency managers, local authorities and other policy/decision makers what Citizen Observatories are and how they can effectively help in the management of flood risk, including in transboundary river basins.

Activities will include:

- Practical demonstration of a citizen observatory for flood risk management
- Cost/benefit analysis of Citizen Observatories
- Exchange of experiences: how can a Citizen Observatory help you?
- Expert panel on balancing the social dimensions and enabling technologies of Citizen Observatories
